

Serving the most critical logistics needs,  
in the most urgent situations,  
when and where they're needed most.

*Our employee base is multi-functional, mobile, and globally deployable. Our expertise includes world-wide rapid deployment to support surge requirements in emergency situations to deliver disaster recovery & relief logistics.*

Resilient Logistics Services and Solutions (RLS2), a Small Business Administration (SBA)-certified, Service-Disabled Veteran Owned Small Business (SDVOSB), serves Government and Commercial clients with our rapid response and unique expertise in Program Management, Integrated Logistics, and Staffing support. Our company's highly qualified and dedicated staff have over 35 years military and commercial expertise meeting the most critical logistics needs, in the most urgent situations, when and where they're needed most. RLS2 provides turn-key logistics solutions by teaming with industry-leading partners.
